This map shows tribal census tract boundaries and numbers within the subject county. nontribal census tract boundaries are shown outside of the subject county. Tribal census tracts are defined within a federally recognized American Indian reservation or off-reservation trust land for the purpose of providing data based on an American Indian hierarchy rather than by state and county. Where reservation or off-reservation trust lands cross state or county boundaries, the same tribal census tract number may be assigned on both sides of the boundary, and, if a noncontiguous single tribal census tract exists, a number may appear 1 and 2, or 601/consist of a single tribal census tract design.
